## FOREWORD

The Center for Advanced Studies in Management and Economics (CEFAGE) is a Portuguese research unit created in 2006 by a group of researchers from the *Universidade de Évora*. Still hosted by this university, CEFAGE has currently also branches located at three other institutions: *Universidade da Beira Interior*, *Universidade do Algarve* and *Universidade Nova de Lisboa* (Faculty of Science and Technology).

The main priority of CEFAGE is to promote high-quality research in Economics and Management. In 2007, in its first evaluation by the Portuguese Foundation for Science and Technology (FCT), CEFAGE achieved the highest grade: *Excellent*. In 2014, CEFAGE was evaluated as *Very Good*.

Since 2011, CEFAGE is also in charge of the Doctoral Program in Economics of the consortium *Universidade de Évora / Universidade da Beira Interior* and the Doctoral Program in Management of the *Universidade de Évora*.

In 2017, the research unit of CEFAGE had 50 integrated members holding a Ph.D. and 1 member who is working towards his Ph.D.. This report describes the research activities of these researchers.

# 1. OVERVIEW

## 1.1. Aims and Policy

The main priority of CEFAGE is to promote the production and diffusion of high-quality research in Economics and Management. To achieve this goal, it is CEFAGE's policy:

- To offer its members means to produce research publishable in well regarded scientific international journals, supporting the presentation of their on-going work in scientific meetings and the acquisition of books, software packages and databases
- To maintain a ranking of Economics and Management journals, which is used to reward researchers with high-quality publications
- To promote cooperation with researchers from other institutions, through the participation of its members in national and international scientific networks, the participation in joint research projects and co-authorship of scientific articles
- To keep a very stimulating research environment and promote a close cooperation between its members, encouraging the publication of their preliminary work in CEFAGE's Working Paper Series and organizing an internal workshop series in order to facilitate the communication and sharing of ideas among them
- To organize relevant international conferences in the areas of Economics and Management, so as to increase the international visibility of CEFAGE as a research group
- To organize Summer Schools, specialized short workshops and technical seminars in order to keep its members and Ph.D. students up to date with respect to the most recent advances in the fields of Economics and Management and well prepared to use the databases and the software packages available at CEFAGE
- To involve its Ph.D. students on CEFAGE regular research activities, who will have the opportunity to participate in research projects and conferences, to present their work at the annual CEFAGE Doctoral Consortium and to publish their preliminary work in CEFAGE's Working Paper Series

In addition, CEFAGE also supports the consulting activities of its members.

## 1.2. Research Interests

The research interests of CEFAGE-UE's members cover, among other fields, agricultural economics, econometrics, environmental resources, finance, industrial organization, innovation and entrepreneurship, international economics, labour economics, marketing and consumer behaviour, spatial economics and sustainable growth. Therefore, CEFAGE-UE is divided into four research groups:

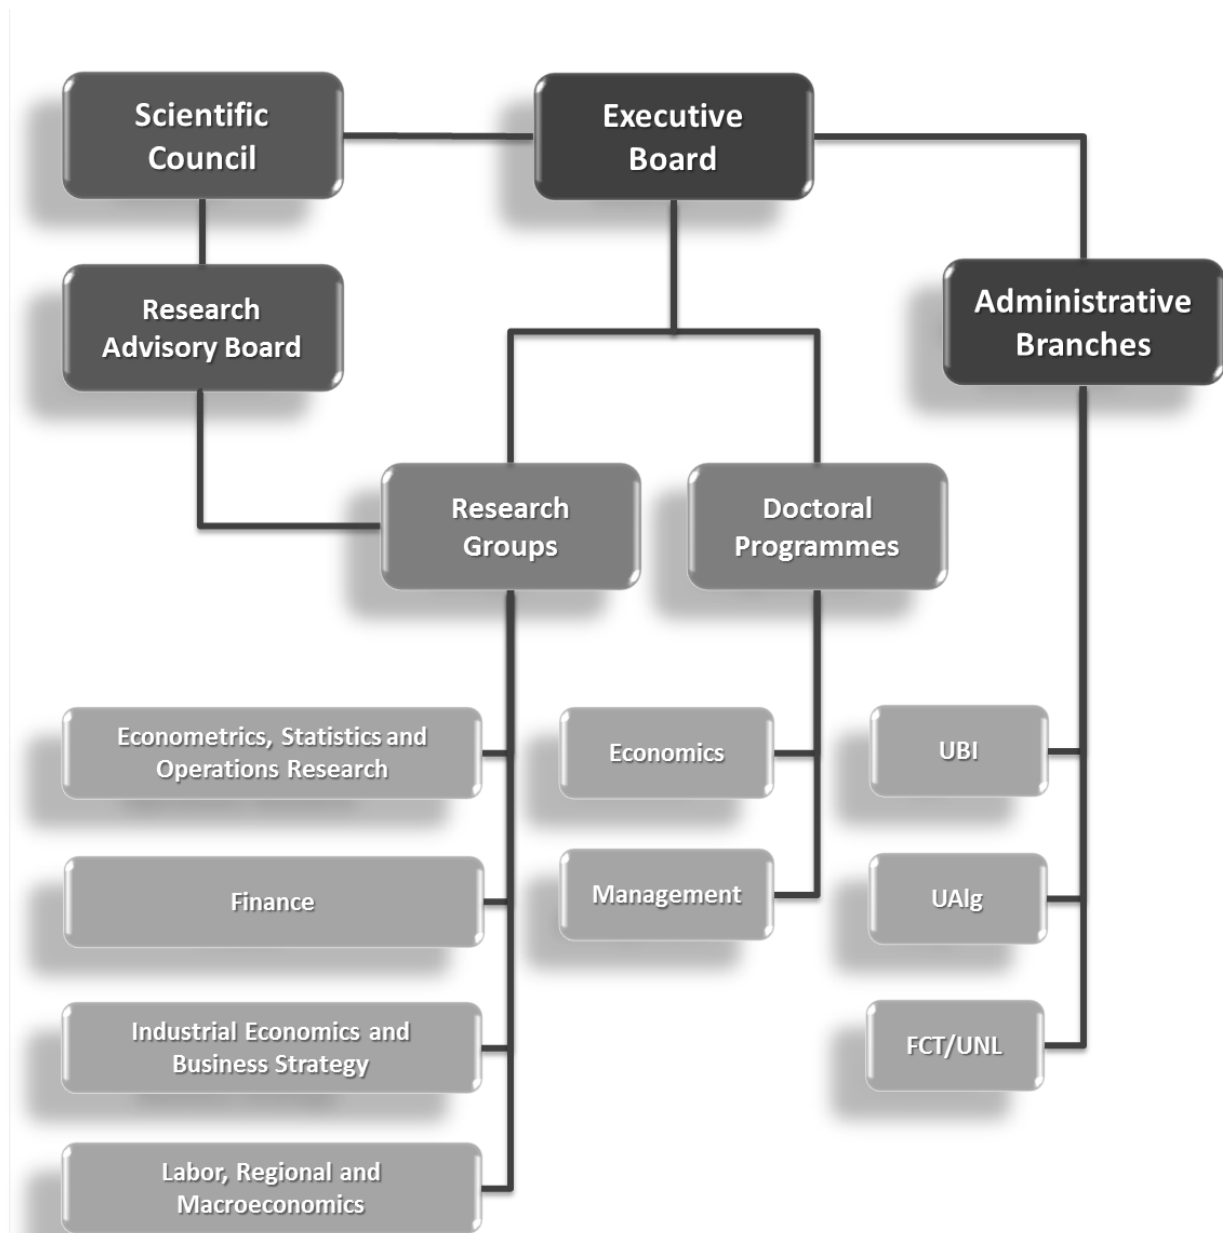

- Econometrics, Statistics and Operations Research
- Finance
- Industrial Economics and Business Strategy
- Labour, Regional and Macroeconomics

Considering our members' current research interests, their skills and competencies, in the period 2017/2020 CEFAGE research will be organized along the following major eleven thematic strands:

1. Econometrics of Discrete and Limited Outcomes
2. Strategy, Operations and Performance
3. Environmental and Agrifood Economics and Management - Theoretical and Empirical Approaches
4. Capital Structure, Investment Decisions and Firm Performance
5. Asset Markets and Investor Behavior
6. Regulation and Competition Policy
7. Entrepreneurship, Innovation and Industry Dynamics
8. Labor Market and Development
9. Economic Growth and Development: Theory, Policy and Empirics
10. Theoretical and Empirical Advances in Tourism Economics
11. International Monetary Economics and Integration
